HOW TO PLAY DS GAMES

ON ANDROID: DRASTIC

How to use drastic ds emulator android. DraStic ds emulator android app.

DraStic DS Emulator Apk is available in the chrome web store just install it and learn how you use it on pc. DraStic DS Emulator Apk is the ultimate android emulator used for playing the Nintendo games on your android phone. DraStic DS Emulator Apk is the ultimate android emulator used for playing the Nintendo games on your android phone. Even, the best part is that you don't need to root your phone to use this application, as it can be run on the regular non-rooted phones. Yes, you can now enjoy those old Nintendo games like Mario and Pokemon on your android phone with a better game optimization. Users need not worry about any graphics related issue because this emulator provides you high-end graphics with better game rendering features. If you really want to feel those "old feelings" whilst playing Nintendo games on your smartphone, you can use an external hardware controller instead of tapping on the screen the whole time. Key Features DraStic DS Emulator Apk

- Customize the settings
- Resize the screen
- Better Graphics
- Quality game rendering
- Save/Load game stats
- Hardware Controller

How to load a game in the Emulator? Adding any Nintendo game in the DraStic DS Emulator Apk is very simple, just follow these steps -

- First of all, download the ROM of the game you want to play.
- You can download it from any default browser you have on your phone.
- After saving the ROM file in your device, open this emulator.
- The DraStic emulator can automatically detect that file and you just have to open this file in order to play the game.
- You can also manually search the ROM file using the emulator.
- Done, just enjoy your game.

What are the requirements needed to use this emulator? There are certain requirements that you must need in order to run it on your smartphone, however, those are just basic things.

- For better stability and performance, your system needs the following least requirements-
- ARMv7a Processor (Neon support) and Cortex A8 Processor
- 256 MB RAM (at least 128 MB space)
- 2.3.3+ Android version

Download // Click on the "Website" link given below to download the DraStic DS Emulator Apk Softonic review

With this application you're able to do variety of things on an Android device, that you would normally only be able to do on a Nintendo DS. Does more than just play games. In addition to being able to play Nintendo DS games, you can also improve a game's 3D graphics considerably, particularly on quad-core devices. You can customise the size and location of the DS screens, for both landscape and portrait modes. It also supports physical controls and add-on controllers in certain devices. You're also able to adjust your gaming experience, with a database, containing over a thousand cheat codes which makes it much more user friendly and offers great support. You can also save and continue your progress anywhere with save states. A fast forward feature allows you to increase emulation speed and you can also synchronise your saved games, with online google Drive space. The benefits of a Nintendo DS, on your Android device. This is a handy app, if you're into Nintendo DS but just want to carry around your Android device. It's only meant to be used with private backups of legally purchased Nintendo DS games and has no affiliation with Nintendo in any way at all. A handy application, great all round. Great gameplay capability. Runs smoothly. Screen alignment issues. No multi-player capabilities. You will be automatically redirected to the homepage in 30 seconds. If you want to play the Nintendo DS titles on modern devices such as your Android mobile phone, then you should give it a try to DraStic. DraStic is a reliable and versatile Nintendo DS emulator designed for Android devices that will allow you to play all your favorite Nintendo DS games. In this article, we will explain to you all DraStic features, take a look and discover how this little software lets you play all the Nintendo DS catalog.

contents

- What does DraStic offer?
- A reliable emulator: DraStic is a really good and reliable Nintendo DS emulator, it will allow you to play on your Android phone almost all the games of the mythical portable console. You just have to download the title's ROM file from external sources, open the emulator, run it, and let the game start.
- Useful settings customizations: DraStic lets you customize lots of settings including how to assign the virtual controls on your mobile screen, the size and the location of the screens (for example, you'll be able to place them horizontally side by side), change the audio volume, adjusting the game resolution, and many more. Make no compromise: With DraStic you will be able to pause the game whenever you want. You just have to click on the "Save State" and the emulator will save the whole game state to let you unpause it later. Moreover, you can even save and synchronize it with Google Drive. Compatible with controllers: It is compatible with both phone-integrated controllers and external controllers. Play at your own pace: You can modify the emulator clock pace, which means you can adapt the game speed the way you want. The emulator we provide is a MOD, hence it is completely free. Is it safe? DraStic is safe, but keep in mind that you have to download games ROMs file separately, always be careful because some files may contain malware. DraStic DS Emulator Contents Key features Cost. Manage my push subscriptions Console emulators Alternative spelling DraStic_DS Emulator-r2.5.2.2a.apk Frequently Asked Questions Apakah semua aplikasi & games yang ada di JalanTikus dibagikan secara gratis dan legal? Ya, JalanTikus hanya membagikan aplikasi & games yang gratis (Freeware) dan legal, dalam artian tidak (bajakan) hasil crack, patch atau semacamnya. Apakah semua aplikasi & games yang Saya download terbebas dari Virus? Ya, JalanTikus selalu melakukan scanning dengan 3 jenis Antivirus (Kaspersky, AVG & Avast) sebelum menerbitkan suatu aplikasi atau games, sehingga bisa dijamin 100% terbebas dari virus. Aplikasi & Games yang Saya download meminta registrasi serial number setelah 30 hari? Meskipun dibagikan secara gratis, namun ada beberapa aplikasi & games yang dibagikan secara Shareware, dalam arti hanya bisa digunakan dalam jangka waktu tertentu dan jika ingin lanjut menggunakannya kamu harus membeli lisensi aslinya. Saya mempunyai aplikasi / games buatan sendiri, apa bisa diterbitkan di JalanTikus? Tentu saja bisa. Silahkan kirim email ke info@jalantikus.com dengan menyertakan Nama Aplikasi/Games, Deskripsi serta Lampiran File instalasi / (APK) jika Android. Kenapa aplikasi / games di JalanTikus tidak selalu update? Demi menjaga kualitas aplikasi dan games yang ada di JalanTikus, hingga saat ini kita masih melakukan upload-download secara manual, sehingga kuota sebesar ribuan aplikasi & games tidak dapat tercapai dalam waktu yang singkat. Saya tidak menemukan pertanyaan yang tepat, di mana saya bisa bertanya? Kami dengan senang hati menjawab setiap pertanyaan yang masuk. Kirim pertanyaan kamu ke info@jalantikus.com

1/3 DraStic is a Nintendo DS emulator app for your Android smartphone. It lets you play and enjoy the console's titles on your mobile device, customises your screen layout and controls. It even works with hardware controllers and the high graphics rendering is also a plus. Nintendo on Android. Android smartphones are becoming ever more powerful, leading to a surge in mobile gaming. However, sometimes, you only want to relive old experiences from your Nintendo DS but lack the console. That's where DraStic steps in, introducing the possibility to enjoy Super Mario, Pokemon Red, and other nostalgic titles on your handheld device. Unlike EmuBox and RetroArch, this one emulates just Nintendo capabilities on your PC or mobile. However, its capacities in this regard are robust, displaying most Nintendo titles smoothly and effortlessly. Games also run on non-rooted phones, which is a massive advantage. The only drawback is the fact you're losing the multiplayer mode with this program. Games & customisation. Apart from running games, DraStic lets you play around with their display modes. Notably, if your device is quad-core, you'll see a significant boost in graphics for 3D games. Moreover, you can shift the gameplay screen location and size to play in portrait or landscape. The save states are straightforward to access through Google Drive, making it possible to proceed whenever you wish. The fast-forward feature helps you increase the rendering speed. The app also supports add-on controllers and physical controls. This feature is beneficial for complex mechanics games, where you'd prefer not to use your touch screen for gameplay. Easy setup & use. DraStic boasts a straightforward setup mechanism, making it easy to add new titles. All you need to do is download a game ROM file to your phone. Then, open the emulator app, and it'll automatically display all available ROMs for you to tap and launch. If it doesn't locate the game by itself, you can use manual search tools to access the repository where you saved the downloaded file and run it from there. Solid Nintendo DS emulator. Overall, DraStic packs quite a punch while maintaining an affordable price. It's among the best tools for enjoying Nintendo DS games without the physical console, operating smoothly and running most games hassle-free. It's a shame that it lacks a multiplayer mode, though, since most of its repertoire works better with friends. We don't have any change log information yet for version r2.5.2.2a of DraStic DS Emulator. Sometimes publishers take a little while to make this information available, so please check back in a few days to see if it has been updated. Can you help? If you have any changelog info you can share with us, we'd love to hear from you! Head over to our Contact page and let us know.
