What are the advantages of Digital Pain Relief (TENS)? Automatic pain relief/massage course: F - D - A - F - E - D - A - F - I (IS min./cycle) Recommended for Waist and Back. H. Remove the batteries if the device is not in use for long periods of time. On page 12 are diagrams of where to place the electrodes for the most common forms of pain. P.11 Using Digital Pain Relief (TENS) Functions (A-H, 8 different selections): A Pain Relief B. There are many benefits to using Digital Pain Relief (TENS): It is a safe and effective method of relieving pain It is simple to use It can be used alongside drug therapy It is lightweight and portable It has 8 stimulation settings to suit different pain areas It has adjustable intensities to suit your needs It can also be used as a massager to help relax you What conditions can Digital Pain Relief (TENS) help relieve? The Digital Pain Relief (TENS) can treat many different types of pain. TENS is recognised as a safe and highly effective method of relieving pain. (For detailed descriptions please refer to the following function chart.) The device has a memory function. If the gel pads do not attach or are dirty, wipe with a wet cloth or replace with new ones. The remaining time flashes on the display (it flashes once per second). Dispose of batteries according to the battery manufacturer's instructions. Please see the section, 'What can I treat' for details of where to place the pads. Each time you press the "OFF" button the intensity of stimulation will decrease by one level (0-8, 8 levels in total) The output intensity level will be displayed by the number on the LCD display: "1" is lowest, "8" is highest. 3. 1 Recommended for Shoulder and Neck. Belt Clip attachment: P.4 Using Digital Pain Relief (TENS) How to connect the adhesive gel pads to the output cable: 1. Adhesive Gel Pads 2. Thank you for selecting Digital Pain Relief (TENS) The Digital Pain Relief (TENS) is effective in pain. Using Digital Pain Relief (TENS) Technical Information and Warnings P.1 P.3 P. Pain Relief/ Massage Tapping Vibrating Kneading Vibrating (Slow-) (Fast) (Slow f (Fast) (Fast) G. P.1 What Does Digital Pain Relief (TENS) Do? Keep gel adhesive bearings clean and do not expose to heat or direct sunlight. TENS breaks these signs of pain. Connect the output cable to the cable on the adhesive pads. IQ 0 (!) .. Lloydspharmacy @ in association with TENS MACHINE - DIGITAL PAIN RELIEF Model:AD-2011 ---DIGITAL PAIN RELIEF USER MANUAL Please read this user manual carefully before using the product Content What does Digital Pain Relief (TENS) do? P.5 Using Digital Pain Relief (TENS) Product features 8 stimulation settings to provide different massage effects with modal set & store function 8 intensity output to fit different body parts and pain Digital touch control buttons and large LCD display making the unit very user friendly "Auto polarity switch" to maximize the effect The ON / OFF button "A" also used to set the intensity Stimulating Large Soft Electrode Tablets The MODE STOP button has an urgent stopping function, making it safe and convenient "Electric-save Micro-computer Single Chip" design, "SMT" integrated operation production, high effectiveness and high quality Setting the automatic therapy time for the IS P.6 minutes using Digital Pain Relief (TENS) Before starting 1. Press to ensure adhesion. Do not clean the adhesive gel bearings with chemicals. In the case of chronic and regular pain, you can significantly interfere with the activities daily and quality of life. Before using Digital Pain Relief (TENS), read the instructions included in this user manual P.2 Using Digital Pain Relief (TENS) About Pain Relief (TENS) OUTPUT PLUG ON/OUTPUT INTENSITY (HIGH) BUTTON DISPLAY LCD OFF/OUTPUT INTENSITY (LOW) BUTTON MODE STIMULATION SETTINGS 1 STOP BUTTON PLASTIC BODY RESIDUING RESIDUING DISPLAY OUTPUT INTENSITY DISPLAY TIMER DISPLAY POINT FUNCTION DISPLAY P.3 Using Digital Pain Relief (TENS) batteries: When the battery is dead, turn off drive and replace all batteries at the same time making sure they are properly installed. Never place the electrodes on the head, face, throat, or directly on bone spine. Connect the output cable to the output jack of drive principal. 14 What does Digital Pain Relief (TENS) do? If the batteries leak and come into contact with skin or eyes, wash immediately with plenty of water. Massage F. Massage E. The pain "A" a warning signal "A" we need these signals to tell us that something is wrong in our body. Please note: never glue two adhesive gel swabs one to other. Why consider digital pain alleviation? Pain Relief/ D. Automatic time function: Digital Pain Relief (TENS) has an automatic setting of the therapy time of IS minutes after which it switches off automatically. FUNCTION AND USE OF ON BUTTONS: Press this button to turn unit "A" and increase intensity output Each time you press the "ON" button intensity "A" stimulation increases level. If intensity output power "A" "0A", means that the "A" device is in standby and will automatically in 20 seconds. Avoid contact of electrode bearings metallic objects such as belts or necklaces. Attach gel adhesive swabs around pain . How does Digital Pain Relief (TENS) work? Make sure you do not move electrode bearings another part your body without first turning off power . Do not apply on cuts or damaged skin Láunitá should only be used on one person at a time. The timer starts working when "A" it starts working. P.7 Using Digital Pain Relief (TENS) Once the bearings, the unit is ready to be turned on. Place the electrodes only on the intact skin. The output power will gradually increase according to the selection of id lam iuc art. erolod led imalcer isrevid id oremun otrac nu rep erolod lad oveillos ecstirof JSNET(elatigid erolod lad oveillos li aticus'led Átisnetni' e enoizalomits id Átiladom al eratsopmi id amirp erolod led aera'la onrotni itaccata eresse onoved iviseda iteniscuc I opocs eloccip nu evres erolod li innad otacifitnedi omaibba elic atlov anu. aivattut elacol AICCAMÁHPSDYOLL airporp allad libinopsid onos ivitutissos dap 1. 2 etrematterroc etalatsni onais eirrtab el ehe israrucissa. oematusnart ocirttiele ovren led enoizalomits al rep itropus SNET . . jelycy/nim "Á a ~ f ~ e ~ f ~ b ~ c ~ e ~ A .ocitamotua ocifiroloditna oigassam / oveillos id osroC .ollevec la esovren erhib el osrevarta innad jed aera'lad issemart onemlamron onos itseuQ oproc led erolod led llanges i accoll .ogoul omirp ni :idom eud ni erolod li aivella otseuQ erolod led aera'led itai i libmartne us idorttiele ilg eranoizisp. erolod led eera ertla reP .itunim eresse rep eratnoc a Áreunintoc ehc remit li Áreznulfni non .osu'1 etnarud atacifidom eneiv Átisnetni' e enoizalomits id enoizatsopmi' eS zerattart ossop asoC JSNET(elatigid erolod lad oveillos led ozzilítU 9.P .etneuges li "Á elovetum ossecorp li .elacol ycamrahpsdyoll aut allad libinopsid onos ivitutissos iteniscuc I .potS Átiladom" etnaslup li eremerp .ottada ollevil nU aticus id Átiladom alled enoizalomits id enoizunf al eraloger rep) Átiladom alled otserra id etnasluP(jsneT(feileR latigid Átiladom alled enoizeles id otsat led ozzilítU 8.P 8 7 6 5 4 3 2 1 0 ybdnats Átisnetni' iligatad rep ?erattart ossop asoC' enoizes al eredeV(.)H-A ad(Átiladom alled enoizalomits id enoizatsopmi id inozeles esrevid 8 onos iC .ilarutan icifiroloditna ious i - oproc led enifrodne id enoizodorp al alomits SNET .ogoul ondoces nI .etrap a icillop 6-4 acric onos e ortla'1 nu'1 onagnopparvos is non ehc odom ni odorttele'led eilgitsap i elibadiffa .ENOIZNETTA .ollevil Sciatica Sports Strains and Distortions Almost All Muscle Related Injuries Please ask your local Lloydspharmacist for advice on any specific condition. Transparent film --- ~ ~ -lll each adhesive gel pad is pre-fixed with a cordon grip and protected by a transparent film. Digital pain relief it works by passing harmless electrical signals into the body from its tablets. Batteries should be handled under adult supervision. (For example, if the "A" device has been set to the "B" before turning off, when the device restarts, will remain in "B" until another mode is chosen .) By pressing the "MODE STOP" button the stimulation setting changes from one mode to the other. The black spot on the LCD display flashes once per second. If a particular stimulation setting is chosen, it will remain also activates when the power is turned off and on again. When the output "1-8" the time setting function starts working. Digital pain TENS "A" is now regularly recommended by doctors, physiotherapists and pharmacists throughout the UK. Without it, we may not know what parts of our body could be damaged, further damaging them. Connect to the output cable via the cable socket. The unit requires 2 AAA batteries. (0-8, 8 levels total) OFF: Press this button to decrease the intensity out and turn the unit off. Remove the film layer and place that side of the gel pad on the skin. REAR BATTERY COVER WARNING: Do not mix old and new batteries or different types of batteries. Pain Removal C. Output Cable 3. . When the output "on 1 - 8, the time setting function starts working. work.
